

Lab Grown Diamond Carat + Band Size Guide

STEP ONE

PRINT THE DOCUMENT

In your printer settings, either set the print scale to 100% or select "Do not scale".

STEP TWO

CUT OUT YOUR CHOSEN DIAMOND SHAPE & BAND WIDTH

We recommend using a small pair of scissors for this as the shapes are delicate!

STEP THREE

TRY IT ON AGAINST YOUR FINGER

Attach the band to your finger with a bit of tape. Place the diamond cut outs on the band to see what different carat weights look like in real life. Mix and match multiple shapes to see what various designs may look like.
